## ABOUT ME

Since typing the first line of code and the console logged "Hello World" my life has been immersed in software development. I've had an intense passion for coding high-quality projects spending most of my time in React. I'm seeking a full time web developer position that offers me fun and engaging challenges.

## PROJECTS

**Coffee Shop** bit.ly/coffeeandcakes
- Built with Next.js, Prismic and MobX to represent a coffee shop's buy online and pick up in store.
- Implemented calls to Prismic (CMS) API for quick menu and homepage updates without full rebuilds, Google Maps API for selecting a store, a cart system with state management by MobX and use of local storage. Deployed on vercel for server-side rendering.

**Kemplet** bit.ly/kemplet
- Built with React, MobX and Firebase to represent a project management web app.
- Implemented user authentication and CRUD operations to the Firebase's Firestore. MobX used for state management.

**Movie Database** bit.ly/reactmovies
- Built React, React Router and the Movie Database to represent a website with current and trending movies.
- Implemented RestfulAPI from the Movie Database and dynamically routed web pages to show movie details.

**Taskmaster** bit.ly/taskmasterapp
- Built JavaScript and Google Maps API for optimizing a user's location based chore list.
- Implemented Google Maps routing and location matrix, this web app will resort locations input by the user and optimize the trips based on miles from one another.

## EXPERIENCE

**Free Lance Web Developer**                                            January  2018 - Present
coltonpemberton.com
- Designing and deploying pixel perfect websites for clients with mobile first, SEO and accessibility in mind.

- Web Development Certification

## SKILLS

**Web Development Skills**
- JavaScript
- TypeScript
- React.js
- Next.js
- Hooks
- Router
- Redux
- MobX
- HTML
- CSS
- SASS
- Netlify
- Responsive design
- UX design
- RestfulAPI
- NPM
- Dom manipulation

**Other Technical Skills**
- Java
- Python
- Git
- Command line
- Adobe Creative Suite
  - XD
  - Photoshop
  - Illustrator
  - Lightroom

**Soft Skills**
- Communication
- Hands On
- Collaborative
- Team player
- Leader
- Quick learner
- Organized
- Motivated
- Reliable
- Punctual
